Dear Sir/Madam

The SCOOTER project (Sickle Cell Open – Online Topics and Educational Resources) at De Montfort University is being funded by the JISC and Higher Education Academy to prepare digital open learning resources as part of a National move to make teaching materials freely available and more accessible via the internet. SCOOTER will release a range of materials on the subject of Sickle Cell and Thalassemia mainly aimed at university education.

These learning resources will be delivered online and made openly available online under a Creative Commons Licence [BY SA], and the following instructions to users of our resources will be provided:

BY - Attribution — You must attribute the work in the manner specified by the author or licensor (but not in any way that suggests that they endorse you or your use of the work).

SA - Share Alike — If you alter, transform, or build upon this work, you may distribute the resulting work only under the same or similar license to this one.

It is our intention that users will subsequently use and re-use the whole and parts of these learning materials in the development of their own educational resources. We will give full credit to the original source, as requested by you.

Desired Material to be Released

If you are not the owner of the material (detailed below), including any third party materials which are contained within, please could you supply the name and address of the person/organization to whom requests should be directed?

If permission is granted, please sign the attached “Grant of Permission” form below and either fax or post it to Dr Vivien Rolfe.
Yours faithfully

Name: Dr Vivien Rolfe
Position: SCOOTER Project Lead
